Suspension Election *Information*

Important! It is only necessary for you to complete the Reimbursement Suspension Election form if you have both an HCSP and a Health Savings Account (HSA) and you meet the criteria described below in “Reason of Suspension.”

Reason for Suspension

An employee who has an HSA account generally cannot make contributions to the HSA if they are eligible to access their HCSP account to reimburse qualified medical expenses. However, if you, your spouse, or an employer wants to contribute to an HSA on your behalf during this calendar year, you should complete an HCSP *Reimbursement Suspension Election* form to suspend your access to the HCSP.

By completing this form, you acknowledge that:

- during this calendar year, HCSP reimbursements to you are limited to vision and dental expenses.
- you can never be reimbursed from your HCSP account for medical expenses incurred during the suspension period.
- the suspension expires at the end of the calendar year, after which time you cannot contribute to an HSA unless you suspend your HCSP access for another calendar year.

Electing the Suspension

Use the chart below to determine who the suspension applies to.

Who contributed to the HSA this calendar year?	What type of HSA?	The suspension applies to:
You or your employer	Individual	You
	Family	You, your spouse & dependents
Spouse or their employer	Individual	Your spouse
	Family	You, your spouse & dependents

Removing the Suspension

You cannot modify or revoke this suspension during the plan year indicated on this form. The plan year is a calendar year running from January 1 to December 31.

The suspension is lifted on December 31 of the current calendar year. However, if you or your spouse or an employer will contribute to an HSA during the next calendar year, you must complete a new suspension form, which prohibits you from requesting reimbursements of medical expenses during the new calendar year.
