Investment Default

Money Market Account

- Seeks to maintain the value of a participant's original investment
- Seeks to earn interest that is competitive with short-term interest rates
- Plan expenses may exceed earned interest

You could lose money by investing in a money market account. Although the account seeks to preserve the value of your investment at \$1 per share, it cannot guarantee it will do so. An investment in the account is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The account's sponsor has no legal obligation to provide financial support to the account, and you should not expect that the sponsor will provide financial support to the account at any time.

Investment Disclosure

Please consider the investment objectives, fees and expenses carefully before investing. The prospectus and/or disclosure documents contain this and other important information about the investments offered through your plan. To obtain a prospectus or disclosure document, or to learn more about the investment options, visit www.mnretire.gov or call 800-657-5757. Read such materials carefully before investing.

No investment is 100% risk free. You can incur loss of principal by investing. There is no assurance that investing will ensure a profit or protect against loss.

Foreign investments involve special risks, including currency fluctuation, taxation differences and political developments. Equity securities of small and mid-sized companies may be more volatile than securities of larger, more established companies. Asset allocation and balanced investment options and models are subject to the risks of the underlying funds, which can be a mix of stocks/stock funds and bond/bond funds. A bond fund's yield, share price and total return change daily and are based on changes in interest rates, market conditions, economic and political news, and the quality and maturity of its investments. In general, bond prices fall when interest rates rise and vice versa.
